

NBA Distances

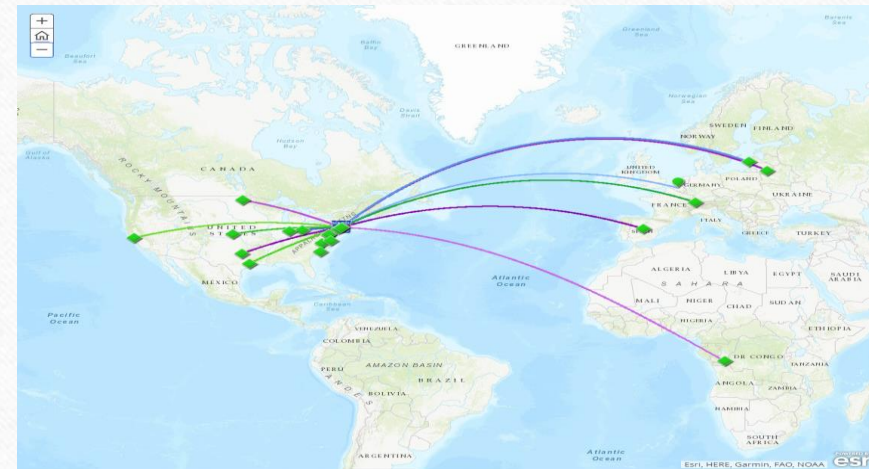

Joseph Dixon

Niagara Falls High School

Gtest GIS

Purpose of my Map

- To give a visual representation and to measure global distances of how far players and families have to travel.

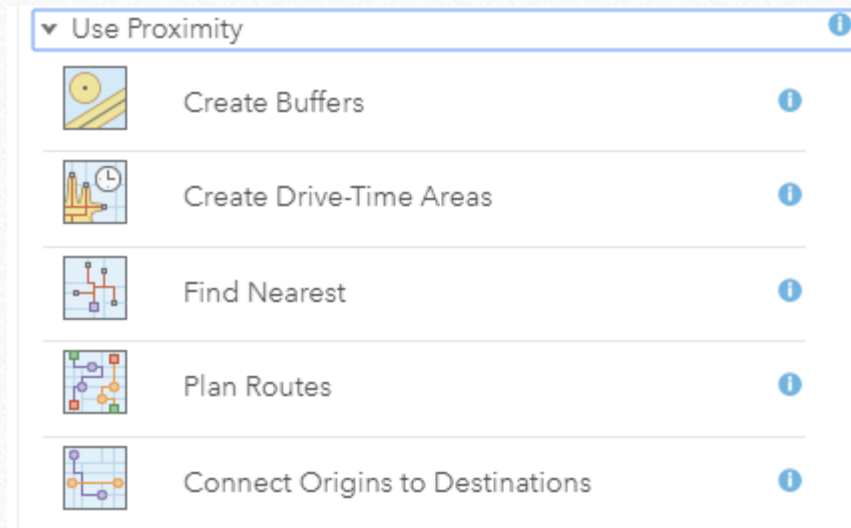

Locations

- The origin is Madison Square Garden which is where the Knicks play in New York City.

Analysis

- I did an location analysis under the proximity option to connect origin to multiple locations.

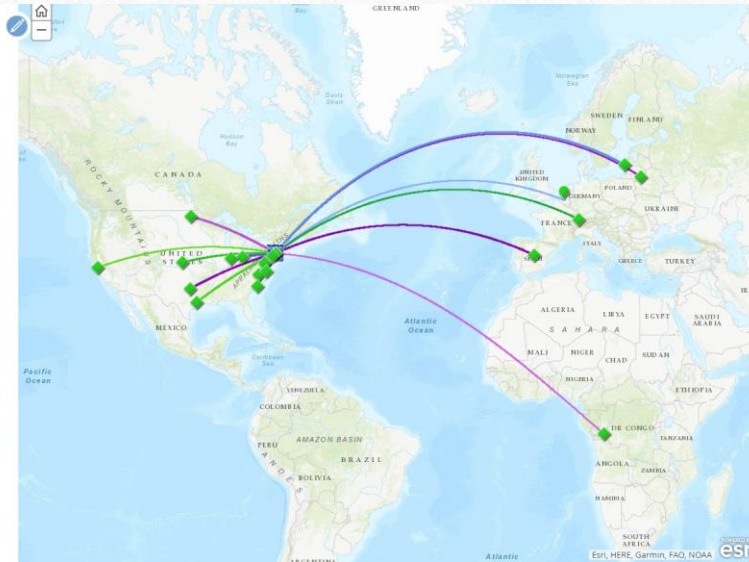

Results

NBA players and family traveling times

The NBA (National Basketball Association) gets players from all over the U.S and even other countries. My Story Map will be showing you how far players have to travel from their hometowns to the NBA team they play for, in this case are The "New York Knicks"

ADD SECTION ORGANIZE

NBA players usually don't get to play for their hometown teams.
